WHY ACE HOSPITAL?

It is one of the upcoming Multi speciality and Super speciality State-of-Art hospital built in one of the renowned areas and situated in the western part of Pune. It is center for holistic health care, aesthetically designed with modern amenities, latest medical equipments and spacious rooms. The hospital possesses highly skilled and well qualified team of health care and dedicated para-medical professionals.

ACE hospital is recognized by several major Government undertakings and other organizations for medical treatment to their employees and families. The hospital provides free or concessional treatment to the economically weaker sections of society without any discrimination.

ACE hospital is now with a capacity of 101 bedded State-of-Art Multi speciality health care center offering super speciality 3D surgeries and transplants.

MISSION

To become the leader in quality health care at an affordable cost in the geographies we serve, by establishing the largest network of medical facilities, with a dedicated team of healthcare professionals who excel in care and compassion.

VISION

The constant endeavor shall be to see that the institute under the trust grows into a giant organization that shall not just be a center of service to humanity, but also for medical education, research and training.

MAN BEHIND THIS

The man behind this multi-care facility is Prof. Dr. Suresh Patankar who is in medical care since 1983 with his dedicated team of Trustees. He has converted his renowned Institute of Urology to Multi speciality hospital in 2004. It is now functional under the umbrella of Arogyaseva Medical Academy of India - a charitable trust.
